Top row photos Larry S. Glenn

Lewis), Delaware. Lunch in Lewes and then on to St. Michaels, Maryland, on Chesapeake Bay. Tom and Abby Campi had generously invited the entire tour to their recently acquired and restored home on St. Michaels' harbor for dinner.

For the next two days the Wholly Ghost tour was joined by the Phantom Phantasy Tour. The next day (Saturday) was spent looking at

cars—all were invited to Tom Campi's new shop, Judge John North's collection, and an enjoyable lunch among the glamorous cars in Henry Petronis' huge garage. That evening the group drove to the historic town of Easton, Maryland, for a dinner theater.

Sunday, Joe and Andrea Willenpart hosted the tour for lunch at their work-in-progress waterfront estate complete with Dixieland

band and pig roast. The Ghosts were arrayed on the lawn and photographed with a special panoramic camera.

On Monday, windy and chilly, the intrepid Ghosts headed north again and wound through back roads to Mendenhall, PA, our original starting point. The final day, we visited the Brandywine Battlefield, Hagley Museum (old DuPont powder mills) and the

**1923 Springfield Silver Ghost Salamanca 329XH (in the de Campi garage for 38 years) back in Maryland, where it was originally owned by Isaac Emerson of Baltimore (Emerson Drug Co., makers of Bromo-Seltzer).**

at 6:30 AM on July 21<sup>st</sup>, 22 Silver Ghosts left the Loews Hotel and gathered at the Annapolis, MD docks. There we were treated to a bountiful breakfast buffet by Bob Austin of Rolls-Royce Motor Cars USA, welcomed by Maryland State Senator Ashton and regally escorted out of town on the first leg of our transcontinental journey by Her Honor the Mayor of Annapolis riding in a brand new Phantom. "California Here We Come!" We had come from all areas of the USA and eight foreign countries to complete the last leg of the Round the World Tour. Because this was also the 2004 Wholly Ghost Tour many other Ghosts joined us for sections of the tour—a total of 32 participated—which was organized by our intrepid wagon-master Mary White.

Our route took us west on the Old National Road which paralleled the interstate a large part of the way. We were constantly aware of the differences crossing the country in Conestoga Wagons, versus our vintage automobiles on back roads, versus modern cars on modern interstate highways. Our first overnight stops were Cumberland, MD, Wheeling, WV, and Deer Creek State Park, OH. As we crossed the Alleghenies I heard one of our overseas members say "I didn't think America would be like this. I thought it would be all flat and wide open spaces."

In Wheeling the Spilsburys (60RE) joined us. They had driven from their home in Con-

Jacque Boynton (MI) Photos by Gil Fuqua (TN)

necticut having missed the Annapolis send-off due to a shipping snafu. At Deer Creek we all breathed a sigh of relief as Con and Nayda Keogh of Western Australia caught up with us. Con and Nayda were with us in Annapolis but their Ghost (106AG) was detained by Homeland Security for agricultural inspection. Imagine your car in customs for over two weeks, dealing with the red tape of Homeland Security, driving from the docks in Newark, NJ, and then driving two more days to catch the group; all of this on the "wrong side of the road." We were now 25 Ghosts; 18 headed for Monterey.

A highlight of the trip for us was seeing at the Wright Patterson AFB Air Space Museum the IMax film on the International Space Station with the Hadfields (369LF). Their son, Chris, had done the IMax filming from the Space Station and was one of the astronauts in the film. After some time in the

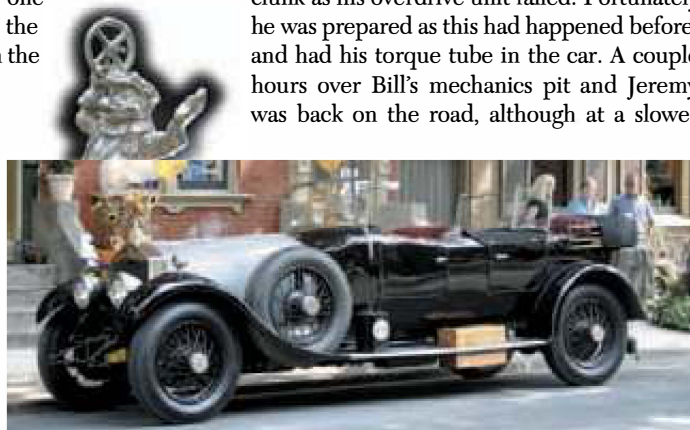

museum, we crossed Ohio with its sprawling fields, barns, silos, rural grain elevators and railroad crossings; our destination was Indianapolis. On Sunday morning we woke to cold, gray, misty rain. It did not slow the adrenalin nor dull the excitement as 27 Ghosts did a lap on the speedway—undoubtedly one of the slower laps in Brickyard history. Taylorville, IL was next with a two-night stay and time to do laundry. Kris Daugherty had arranged for us to leave our dirty laundry in the motel offices by 8:00 AM and it was returned at 5:00 PM that same day—all clean and folded BUT not necessarily to the rightful owner. The extra day in Taylorville was used to run each Ghost on the dynamometer in Bill Kennedy's shop. One of the more interesting mechanical failures also occurred on this day. As Jeremy Greene (41EM) of Perth, Australia was driving onto the dyno there was a loud clunk as his overdrive unit failed. Fortunately he was prepared as this had happened before, and had his torque tube in the car. A couple hours over Bill's mechanics pit and Jeremy was back on the road, although at a slower
