

CLC14 James Young design SC12 delivered in the U.K., but sold in the United States some years ago. Last recorded when with Albert Kimmel in Sacramento, California during 1991, the car has not been reported since then. (SHRMF/R-REC)

An outing to the north side of a very quiet London Airport in Spring 1955. The meeting of the marques with technically identical cars - only the grille, a few strategically placed logos and a disparity in price set them apart! The Bentley, B6AN was last recorded in the U.S.A. during 1978, the first production Silver Cloud SWA2 is currently in Ireland and the Douglas DC6 airliner was broken up at Lima in 1977 after service with the Peruvian Air Force. (SHRMF/R-REC)
